

"Demolition is undoubtedly a vulgar task; the highest glory of the statesman is to construct. But there is a time for everything — a time to set up, a time to pull down. The talents of revolutionary leaders and those of the legislator have equally their use and their season. It is the national, the almost universal, law, that the age of insurrections and proscriptions shall precede the age of good government, of temperate liberty and liberal order."

## A TIME FOR CHANGE? OR A TIME FOR REVOLUTION?

By ANTHONY JEMMETT

It is time that those of us who have thus far survived the virulent spiritual plague sweeping our country, with its symptoms of racial mongrelization, cultural degeneracy, and social chaos, started seriously thinking about revolution. Yes! We have just uttered the word that has become, through long association with anarchism, anathema to the comfortable majority and all righteous and dutiful conservatives still living in the "good old days." Literally taken, however, the sense of the word that concerns us is simply a COMPLETE AND TOTAL CHANGE, and if it is not time for such a change at this juncture of our affairs, and in the horrendous mess now threatening our very survival, then there will never be a time!

In the full realization of the meaning and effect of the word, revolution, lies the only hope of saving whatever is yet salvageable in this culturally and racially moribund nation of ours. However, while the comfortable, so-called "silent majority" is busy being very audibly UNSILENT about the EFFECTS of the system now hag-riding our country to its destruction, it manages to remain heroically oblivious to their CAUSE, the system itself, for the simple reason that the "silent majority" is itself one of the principal parts of the system; a part that has become, along with the "Right-Left" hoax, one of the main factors in its perpetuation.

However, to those of us with the intellectual force to muster the momentum necessary to break clear of the turgid mainstream of "Right-Left" thought control and climb up out of the illusory mud — the silted delusions — of the "American dream" onto the solid bank of Reality, where things can be seen long and whole, not only the effects now besetting us, but their cause — their source — become quite clear, and with its recognition, the knowledge of the only possible cure, the only hope for averting the disaster now bearing down upon our nation with the surety of Nature's inexorable laws and their consequences when bent long enough and far enough. But, like the heights of Nietzsche's Zarathustra, this knowledge is a perilous, albeit heady level of awareness bringing with it a responsibility that requires a special breed of people to live up to. This knowledge brings with it an obligation on the part of its possessors to at least attempt to make use of it — to at least attempt what must be done, before it is forever too late to do anything.

For the sake of those who have not yet achieved this clear perspective, let us pic-

ture for a moment a huge, rotten, rickety, termite-ridden, vermin-breeding building — a structure unfit even for beasts, but amounting, nevertheless, to one vast tenement inhabited by a mobocracy of people who, in their debased and perverted instincts, are in some ways lower than the beast-world. Next, let the reader imagine having to live in such a slum — a slum so bad that not only the facilities necessary to healthy life are lacking, so bad that not only does he (the reader) live in constant danger of its collapsing on his head, but, in its disease-ridden and festering squalor, such a threat to all other life in the world around it, in its contagion, that it was only a matter of time before the rest of the world rose up en masse and set it to the torch, in self-defense.

Now the question is, what would such a person, with normal life-instincts, do? Would he accept such a sickened state of existence, like a fool; would he flee to some distant refuge, like a coward; or would he accept the responsibility, the duty thus thrust upon him, and to the best of his ability, set about the demolition of the slum, knowing that only in its destruction, paradoxically, lay the preservation of life, to clear the way for the construction of a truly life-worthy structure, one based on the laws of health and life, and not on their abnegation.

It should be apparent by now that this great "slum" of the world is none other than the vast Jewish colony and hot-bed of culture distortion that the United States has long since become.

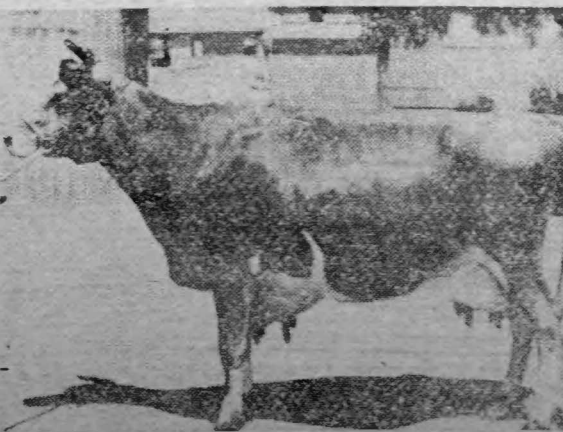

The choice is quite clear — decay and death, or drastic change, the change understood in the word REVOLUTION. Considered in this light, the word loses its frightening connotation and assumes instead one

of hope, the only real hope open to us at this point in history.

There are always those, of course, who despite their awareness of the issues, will choose to shirk their duty, or misguidedly cling to outworn principles and sentimental nostalgia for the "good old days" which probably never existed in the first place, and certainly do not now. Yes, there was a time when America boded greatness for the future, when the European stock that produced the philosophical subtlety of Jefferson, the earthy dynamism of Andrew Jackson, the chivalry of Robert E. Lee and the combination of all these in such figures as Lincoln and Teddy Roosevelt, was busy carving a new empire out of the wilderness. Bluff this new breed was, and hearty, with the tang of the soil, and work, and frontier life, but it inspired Whitman's vision of a future "breed of superior persons" and managed to build, before its decline, the mighty structure of world power that the Jewish termites usurped and converted into the sty where now wallows the sub-bestial, miscegenated mob which the Jews so profitably "farm."

We speak of America's greatness in the past tense, for this great nation and its doughty builders are no more, as a glance at the "American scene" today will show. They have gone the way of the Egyptians, Persians, Greeks, and Romans. In their hey-day they were too busy building a new country and producing statesmen to run it, too busy working to feed and shelter themselves and their families, or even fighting for their lives, to have time for petty politics, graft, "social studies," symposiums, leagues of women voters, and liberal "guide-lines", and therein, despite the tears of certain poor souls of the tea and sympathy set at the thought of such a "hard lot" in life, lay their strength. They knew a purpose in life, and the successful meeting of challenge, and the fruits of their own labor, the sweetness of which was never tasted by our modern American bourgeoisie and welfare-recipients. In short, they had the Will-to-Life, unlike the America of the "sickly seventies," with its nihilism and life-abnegation more appropriate to a Buddhist monastery than a former flourishing outpost of the West. But these former great Americans made the same fatal mistake that so many other nations have made in the past. In their guileless zeal and preoccupation with the task of creating, they allowed the Jewish world-termites, whose only task is destroying everything not Jewish, to enter in and entrench themselves. From that point on, it was only a matter of time before the "ark of state" was

# Conservatives and Trotskyites

By FRED FARREL

American "Conservatism" is now solidly allied to Trotskyite Marxism. Such an alliance between rich Jews and rich Goyim, against the American people, is hidden in the welter of pseudo-controversy about Communism. Virtually all of the big-time anti-Communists in America today are gold-plated phonies. They are not saving the American people from Communism. On the contrary, they are the Judas Rams who are leading the sheep to the slaughter. They gallop around the country loudly proclaiming themselves to be "experts" on Communism. They are in fact experts at swindling the American people into supporting Trotskyite Marxism under the guise of "patriotism."

The American Jews are using phony "patriotism" to secure their power over America and the rest of the world. Offhand, it is very difficult for me to discover any reason for being patriotic at all. The U.S.A. is no longer our country. It is a Jewish colony. The Jews have destroyed our native culture one hundred per cent. It is now nothing but an empty, burned-out shell. Indeed, they have treated us very much as conquerors always treat subjugated people. They have undertaken a massive character-destruction program against our people, in order to make them easier to manage and hold in subjugation.

They have leveled a campaign of total, wanton cultural destruction against us. Why should I urge a young man to be patriotic today? Being patriotic only means upholding the Jewish power, and the treatment which that power has accorded us certainly merits no such support. The Jewish purpose has been to destroy us morally and culturally, so that the Jews can bend us perfectly to their will. They are now undertaking successfully a vast campaign of genocide against the white race. This includes the expenditure of millions of dollars to promote a drug culture among young white people, so that untold thousands of them will die of hardship and vice. The whole power of the United States government is being used by Jews to destroy us.

We should in fact issue an ultimatum to the American Jew-capitalists:

1. Hand back our culture to us. Get the Jews completely out of the literary field and the media. Let us try to revive the spirit of the people.
2. Abandon the idea of building a Jewish world state.
3. Abandon all support of Israel.
4. Stop trying to restore Trotskyite Marxism in Russia.
5. De-monopolize the economy and restore private enterprise in lieu of the present private Socialism.

If the American Jew-capitalists fail to meet these terms, we should declare all-out war against American Capitalism. We should go abroad and warn other nations of the folly of allowing themselves to be ruled by the American Jews. We should advise them to kick out the American Jews and confiscate American-Jewish investments in their countries.

In other words, we should say bluntly to the Jews, "either hand back our country to us, or we will go over to the other side."

Immediately when we have said this, the anti-Communists begin to scream. They will say that we have to support the Jews because they now control American capitalism, and we don't dare be against good old American capitalism, do we?

Indeed we do. I am not enamoured of "economic systems." I do not believe in economic determinism of either right wing or left wing varieties. If the Jews are going to use the economic system to enslave us, I would readily put the economic system to the torch. What can we ever expect from

**WINSTON CHURCHILL**, a Rothschild stooge, who once publicly stated: "I am a Zionist," launched the cold war against Russia with his speech at Fulton, Mo., after WW II. Although many are unaware of it, Churchill was really speaking for the Jews.

the Jews, except that they will impose upon us utterly abject slavery? They have already destroyed our culture and are in the process of destroying our race.

What do the "economic Conservatives" do while all this is taking place? They occasionally mutter against "Kikes," but when the chips are really down, they always go straight down the line with Jewish policy. They especially like Jewish policy on Russia. They want a "Red Russia," but they do not want a Russia which can challenge the West. They want a Russia which is badly disorganized, incompetent, starving, and militarily impotent. The only way to get Russia into this fix is to have agents there sabotaging Russia from the inside. The Jews have the Trotskyites available for this purpose. If the Trotskyites ever again get the upper hand in Russia, then Russia will be destroyed from within.

This is the real policy of the high muckymucks of the American Right Wing. It is also the policy of the government, and is taught as a basis of national policy in the Army and Navy war colleges. The Jews are to rule America; they are also to get control of Russia and neutralize Russia by ideological sabotage. The whole machinery of power in America supports this policy. American "anti-Communism" is merely a well-organized department of this policy. So is American Communism. Russia has no worse enemies in the U.S.A. than Gus Hall and Herbert Aptheker. Today the foreign Communist parties are all aligned against Russia. In Stalin's day, the Communist parties of the earth were solidly under Stalin's control and functioned as instruments of Soviet foreign policy, rather than as revolutionary agencies. With the death of Stalin, the Jews moved in quickly and recaptured control of these Communist parties for the Trotskyites, who are mortal enemies of Russia. As the Communist parties have turned against Russia, the American "Conservatives" have moved into alliance with these foreign Communist parties. Their policy is to disrupt the Soviet empire in every way possible. Revolts were fomented in Hungary, Poland, Roumania, and Yugoslavia. Nixon visited Roumania and is now visiting China to further the organization of World Communism against Russia. Nixon is in fact up to his ears in World Communist politics.

Today Communism is not a pro-Russian force in the world. It is anti-Russian, and the Russians do not at all rely upon it. Their faith is invested in good atomic submarines, cruisers, ICBM's, and the bayonets of the Red Army.

The "cold war" against Russia is Jewish. The cold war began with Winston Churchill's speech at Fulton, Missouri, shortly after World War II. Churchill was an absolutely reliable Rothschild stooge. We may assume safely that when he declared cold war upon Russia, he was speaking for world

Jewry, although he pretended to be speaking for "Western Civilization." Churchill warned that the "Huns and Vandals" of the East would overrun Europe unless we organized NATO. Indeed, Churchill spoke the truth. If the West had not organized defenses, Russia would have planted the red banner on the Atlantic shores of France twenty years ago.

What has happened in the West during those twenty years?

Was the defense of the West justified?

Do we have anything left worth defending? In those twenty years, we have sunk deeper and deeper under the ignominy of Jewish rule. The systematic destruction of our culture and our race have gone on and on. The American white majority have been politically dispossessed. They are now the "new niggers" of the American political order. Rapidly they will be stripped of their goods and chattels, their social and economic standing, their character and morality, the remaining remnants of their culture, and all of the higher and better attributes which make a great and noble race. The all-powerful Jews are marching them briskly along the road to **FELLAHDOM**.

The fraudulent patriots and anti-Communists, who swindle us into supporting the Jews, under the guise of saving America, are the scum of the earth. The German Wehrmacht fought Russia in a bold and forthright way. The Third Reich was the last bonafide western white nation. The United States of America is merely an area ruled by the Jews. The U.S.A. cannot begin to carry the banner of the West against Russia. In this country the principal race, the race which was always the backbone of the nation, is in the process of being destroyed. The Jews send shock wave after shock wave of demolition through the Gentile culture. Can we expect our young people to defend the country while they are in the process of being destroyed?

Our young people find no salvific leadership among the elders of their own race. They find only the "Conservatives." Among the "Conservatives" they find the corpse of patriotism, the ghost of dead America, the petty meanness and stupidity of the so-called "leaders," the total rejection of reality, and the creation of fantastic convoluted myths designed to justify the support of Jewish rule. The Conservative always says that he is "fighting Communism." The activity which he calls "Fighting Communism" consists chiefly of running around the country yipping like a dog with turpentine upon his tender parts. In fifty years, this ignorant rabble have not done a dime's worth of real damage to Communism. Actually, they are quietly allied to the Jew Trotskyite Marxists. The whole social class which supports the "right wing" is politically and morally bankrupt. The goddess of history has marked them for oblivion. Their vacuous leaders know full well what they are doing. They will never lead this bawling herd of two-legged bourgeois cattle to any victories; but they will deliver them to the abattoir where they are to be destroyed with great dispatch and infallible efficiency. Perhaps this is the only thing which can be done with them in any case.

The realist writes off the American "right wing" one hundred per cent. There are no further possibilities in it. It is beyond redemption. Its fraudulent "anti-Communist experts" are not interested in saving America. They only want to help the Jews put the Trotskyites back into power in Russia. The right wing is just as much a part of the conspiracy as the left wing, if not more so. It is destitute of good faith, morally decadent, politically illiterate, intellectually bankrupt, and wholly devoted to the promotion of Jewish aims, and most especially the successful Jewish enslavement of the American people.

There will be a swing to the right, but it will give us only Jewish Fascism, not a revival of the old America. When the much-touted "swing to the right" comes, the destruction of the white race in America will shift into high gear. Jewish Storm

(Continued on Page 3, Column 1)

## Conservatives & Trotskyites

(Continued from Page 2, Column 3)

Troopers, already organized by Rabbi Kahane, will storm around the country suppressing any manifestations of American native culture which may appear. The Federal Government will continue to back the racial minorities against the white majority. The fraudulent, sold-out, prostituted "leadership" of the right wing will continue to act as the Judas rams who lead the sheep to the slaughter.

Any man who wants to be considered an honest man today should get out of the right wing, the left wing, indeed the whole right-left orbit. The Jew is the "Nazi" of America today. Anyone who wants to be politically effective in this century must be a Nazi of some sort. Make no mistake about it: the American Jews know how to do it. They are against "Hitlerism" only when somebody else does it to them; when they are in a position to dish out the punishment, they are all for it.

What can the high-quality, culture-bearing young American white man do today? Face the fact that we are going to be "leaves in the storm," that we no longer have a country of our own. As for this great Jewish Babylon called the United States of America, it is no longer our America and it is no longer entitled to our loyalties. It is the cesspool in which our culture has been drowned, the abattoir in which our race is being murdered, the slave pen in which we endure odious subjugation to the Jews.

Face the fact that it is **too late for reform**. Only the **DESTRUCTION** of the Jewish-American social order will liberate you. You do not need patriotism today. You need nihilism. The task which faces you is a task of destruction. Are you a true Aryan savage with the guts to put the torch to the slave pen in which these vermin try to imprison you? Refuse even to think about "the economic system." Men will always be hungry enough and greedy enough to operate economic systems. The bastard mysticism of economics is a morass into which you can sink forever. Avoid this morass. Insist that as a white Aryan you must stand free; you must not be forced to bend to any alien will; make it abundantly clear that you will see this damnable, dirty Sodom and Gomorrah go up in smoke before you will bend to the alien will. Better dead than slave!

Always in America the "economic thinkers" will come at you. We must destroy economic thinking. We must destroy economic determinism as a political force. This will occasion screaming protests from the economic conservatives. Let them scream. Indeed, take your horsewhip firmly in hand and **make** them scream. We must be rid of the dirty, materialistic caricature of patriotism which the right wing has created to serve its most utterly sordid self-centered interests.

We must concentrate with single-minded intensity upon the **destruction** of Jewish power in every corner of the world. We must refuse to be sucked into the fatal vortex of right-left pseudo-controversy. We must destroy the right wing, and we must destroy the left wing, and we must destroy the whole fraudulent frame of reference which makes right-left politics possible. Governments are only the shadow of power. Power rests upon spiritual and intellectual systems. When we have destroyed the intellectual systems which support Jewish power, then the evil structure of Jewish power will come tumbling down. The prostituted governments which support Jewish power will fall in windrows. Ten thousand synagogues will go up in smoke, and we shall not even get our hands dirty in the matter. We shall destroy the Jewish world Babylon. We shall evoke the voice of the archangel crying, "Come with me and see the condemnation of the great harlot who sits upon the many waters." Come and see the funny little Jews when the day of judgment comes!

"When you see timbers coming from far off and diverse lands to a certain place, all cut precisely even as to mortises and tenons, you know that the various artificers were working in concert according to plan." — ABRAHAM LINCOLN.

## A Time for a Change?

(Continued from Page 1, Column 3)

turned into the Jewish "Establishment."

We have now reached the point where the "silent majority" will make no move to save itself from the worsening conditions in its midst, nor any attempt to escape the impending doom. It is not a question of choice anymore with them. They are actually incapable of any such salutary, constructive effort. It has been bred out of them. It is now as rotten in its spiritual foundations as the Establishment it props and peoples. The foundations of both have been undermined by the Jewish termites who not only devour and pollute everything of a material nature around them, but secrete while doing so a foul but subtly acting miasma which destroys the intelligence of those infected, and attacks the very seats of human vitality, until the victims have lost the larger life-urge with its healthy instincts for the perpetuation of the race and the flowering of culture, and becomes submerged instead in an anti-social preoccupation with self which, "progressing" to its ultimate stage, divorced from life, responsibility, and Reality as it is, becomes sterile and inert, ending in its own negation, and leaving only nihilism.

Thus the silent majority has lost its ability to think, feel, or act in any really relevant manner to the demands and exigencies of life today. It can only RE-ACT whenever some effect or symptom of the system of which it is a part happens to impinge upon some still-active phase of its self-urge. It is therefore of no use to tell the silent majority that if they would simply step out of their effluvial and dilapidated slum of an Establishment, and give it a good shove, they would escape having it fall on their heads before long, and, at the same time, by getting out into the fresh air of reality once more, away from the debilitating yidic secretions, would recover their senses and hold onto life again. However, although they are too far gone to heed the warning of danger or the call of responsibility, Nature has her ways of curing such an unhealthy state of affairs, by the primeval and elemental laws that always tell in the end. If our house is not rebuilt and made life-worthy, soon, it will come toppling down with a crash, swept before the furious onslaught of a strong and elemental storm now gathering force in the East and getting ready to come sweeping down from the Slavic steppes with such force and devastating violence as has not been seen and felt for a long, long time on this battered old planet, but it will be necessary, because it will be a purifying violence, and will clear the air and blow away the stench of the now dead "modern" age. We'd best get our lightning rods up.

It is therefore obvious, that any constructive or protective steps that are to be taken to weather such a storm are left squarely up to the kind of "elite minority" who read COMMON SENSE. We can only afford to address those now who have the guts to respond. Those who still want to play the Right-Left game, to have their cake and eat it too and make conservative noises while watching their Race and Culture being destroyed, are only so much dead-weight in the coming showdown, and deserve the ditching they will get. There can be only one purpose, one challenge for such an elite as our readers represent in America today — clear away the debris and deadwood of the now defunct "modern age" to make way for the new Post-Modern age, and the re-assertion of the life-urge. If we cannot set our own house in order, someone else will, in obedience to the eternal laws of nature. It is useless to stand on outworn principles; we must act on an intelligent assessment of what needs to be done and do it. The fight is here and now!

## THE IXth CRUSADE

The truth hurts. This is why most people shy away from it and why it has been labeled as "extremism." Nevertheless, if we value our lives at all, we had better make up our minds to face up to it. It is the only way we can hope to cope with what is being done to us all by the forces of evil running rampant over American government, institutions, and society. This cold, hard truth is the fact that we've lost the ideo-political battle against the hosts of Satan. The **MONEY POWER** behind these vermin proved too much for us.

For over fifty years, we have been tilting at windmills. While quixotically chasing mythical isms with a butterfly net woven out of loftily-phrased gasbagery, the **money power** simply sashayed in and took us over lock, stock, and barrel. Consequently, it is ludicrous to think that we've still got a Constitution to protect, a Bill of Rights to save. We've got nothing, not even a Constitutional Republic. All we've got left for our blood, sweat, and tears is a "democracy," the worst form of government ever conceived in the warped minds of evil men.

"The American Way of Life" is an ostrich-like delusion. True, once upon a time we enjoyed such a thing. But, ever since Dec. 23, 1913, when a handful of traitors ramrodded into existence the Federal Reserve Act, the way of life we were promised flew out the window. Since that time, we've been taxed into economic bondage without any representation whatsoever and sold down the river to the highest bidder—the **SYNAGOGUE OF SATAN**. Through its puppets in American government, institutions, and society, the **money power** has usurped dictatorial jurisdiction over every American man, woman, and child from the cradle to the grave. Freedom is a bad joke. Soon, in fact, we will be zombie-like, numbered hewers of wood and bearers of water under the jackbooted yoke of a totalitarian, world super-government, the evil likes of which the world has never seen nor endured. Soon, that is, unless we wake up to our hour of truth and face up to realities.

We may have lost the ideo-political battle through sheer default. But, this does not necessarily mean that we have lost the war between the forces of good and evil. The final battle in this war for the souls of men has yet to be fought. If we are to win this last battle, we had better get ready for it.

To fight evil, we must first cleanse ourselves of it and turn back to **GOD!** Man, in short, must first make up his mind to be good before he can hope to cope with the forces of the devil. But Man, having been led by the nose down the primrose path to oblivion by **Satan**, no longer knows how to cleanse himself of evil in order to regain his soul. However, there is a very simple way to do this. In fact, in many of Her Apparitions on earth, the Mother of God, Herself, gave us the Divine Formula. All we have to do is to expose ourselves to it and, by doing so, we will have rejuvenated our powers to deal with the devil. The time is **NOW!**

# THE NEWS IN PERSPECTIVE

By PAUL PULTZER

The Fabian hypocrites in American government, institutions, and society have chalked up another major victory. Brushing aside the will of the majority of the American people, this subversive elite minority amongst us, dedicated to an alien ideo-political philosophy and wielding political power over us way out of proportion to their numbers, managed to kill the proposed amendment to return prayer to public schools. These parasitical termites were able to do this even though a majority of 240-to-162 in the House of Representatives favored the proposal and because the balloting fell 28 votes short of the two-thirds majority required to affect an amendment to the Constitution. And so, after a nine-year long battle to reverse the 1962 and 1963 Supreme Court decisions which outlawed prayer in public schools on the grounds that it violated the freedom of religion guaranteed by the First Amendment, the forces of good in America had to surrender to the forces of evil. But only because that deaf, dumb, and blind "great silent majority" couldn't have cared less and because that deaf, dumb, and blind "great silent majority" silently accepted the anti-American capers of 162 congressmen who should never have been elected to office by them in the first place. It follows that their senatorial selections are no better. Never have so many been suckered by so few.

The recent assassination of the prayer amendment re-spotlighted how the all-powerful enemies of pro-Americanism operate in government to achieve their ends after having hoodwinked the ignorant electorate into voting them into positions of policymaking power in government. It also stripped bare how outside, ideo-political pressure groups, representing only small minorities with selfish interests, aid and abet their ideo-political lackeys in Washington. With sanctimonious hypocrites like these amongst us exercising political power, we need no enemies. In fact, with the silent acquiescence of our "great silent majority" of 1968 fame, they are going to put out the lights in America and bury us all under the yoke of slavery.

The defeat of Rep. Chalmers P. Wylie's (R-Ohio) proposal is extremely important in the sense that the issue decided, representing a moral and spiritual principle peculiar to America alone, brought two opposite forces into collision and effectuated a clear-cut showdown. The forces of evil won, the forces of good lost. This decision proves who is now in supreme command of our destiny as a nation and people and who is going to have to obey or else. America's course in world history, as charted by our Founding Fathers, has been aborted. The damage done is irreparable. We have now been steered on a course mapped out by Satan. We are now on a toboggan slide into hell and damnation as a once sovereign nation and as a free people once living the good life under Divine Providence. For having cowardly shied away from getting involved in the fight against evil, we deserve everything waiting in store for us!

The abolition of prayer in public schools, an innocent act of no serious consequence to the Judeo-Masonic concept of a separation between Church and State, was brought about by the impudent actions of a self-styled atheist of questionable background and character. This woman, Mrs. Madalyn Murray O'Hair, figuratively surfacing on the American landscape from out of nowhere, single-handedly defied an established American custom and tradition, as well as the will of almost the entire nation, and filed the court action which finally reached the cursed Warren Court for a definitive ruling. That this woman could accomplish such an insidious feat in America with absolute impunity, does not speak

well at all for the character of most Americans. Neither is it a feather in the caps of the Supreme Court, the Kennedy Administration, and the Johnson Administration. As a matter of fact, Mrs. O'Hair showed up American government, institutions, and society as a joint venture in duplicity, hypocrisy, and fraud when the Warren Court ruled in favor of her legal petition in 1962 and 1963.

While America slept, a few concerned Americans counter-attacked the Warren Court's disregard for common, human decency. This resulted, in 1964, in the holding of extensive hearings by the House Judiciary Committee, which has been chaired ad nauseam by Emanuel Celler (D-N.Y.). Mr. Celler, always true to his ideo-political colors — which vary between the shades of red, pink, and lavender — decided that his committee could write

MADALYN O'HAIR, the modern Voltaire, self-styled "most hated woman in the world," pioneered the successful fight outlawing prayer in public schools. Words of Mrs. O'Hair speak for themselves: "I find the Bible to be nauseating, historically inaccurate, replete with the ravings of madmen. I find God to be sadistic, brutal and representation of hatred, vengeance. We find the Lord's prayer to be that muttered by worms grovelling for their meager existence in a traumatic world."

Congressional Record, March 11, 1964.

no prayer amendment that "did not do violence to the First Amendment." How it happened that prayer in public schools did not do violence to the First Amendment before the likes of Mrs. O'Hair polluted the atmosphere, was not explained. The same question, applicable to the Supreme Court, Congress, and the White House, was also bypassed. But, as could be expected, Mr. Celler, like a hen sitting on what she hopes to hatch as golden eggs, sat on this issue for over seven years until, finally, Rep. Wylie forced him, by means of a discharge petition signed by a MAJORITY of House members, to release it for a decision on the floor. What happened, is now a matter of record.

Protestant, Catholic, and Jewish groups, in defiance of common sense and reason, opposed the amendment on the dubious grounds that it would lead to government regulation of religion. This, of course, is a lot of ideo-political doubletalk and hogwash. The American Jewish Congress, for example, claimed that "the prayer amendment would have set a dangerous precedent, paving the way to other limitations of basic liberties such as freedom of speech, press and assembly." This argument, too, adds up to nonsensical prattle. Moreover, it also goes to prove that organized Jewry in America has yet to shake itself loose from a ghetto-forged mentality out of place entirely in their land of milk and honey. The entire crew of screwballs, in fact, adhered to the Fabian Socialist party-line

as promulgated by what is called the "Liberal Establishment" in America which, in turn, is part and parcel of the God-less MONEY POWER which really rules the roost. Even more disgusting, 343 law school deans and professors backed them up with yodel-like tunes emanating out of bleeding hearts, which goes to prove that our college students could learn much more if they had 343 less deans and professors to put up with.

When all is said and done about this defeat, the sanctimonious hypocrisy behind it remains as an ironical reminder of how low American justice has sunk. The two Houses of Congress continue to open each session with a prayer; inscribed on the wall behind the speaker's chair in the House is the motto "In God We Trust" while the same motto adorns our worthless dollar bill; the President takes his oath of office with a hand on the Bible and, today, there are weekly services in the White House; and the Supreme Court, which is responsible for this tomfoolery, opens each session with the prayerful plea: "GOD SAVE THIS HONORABLE COURT."

With a wave of sanctimonious hypocrisy like this swamping our land, we should all get down on our knees and pray:

"GOD HELP US!"

## LETTER FROM FREE CHINA

Years ago a certain gentleman made a bold, spectacular and far-reaching move which was widely approved by his contemporary compatriots

For a small monetary compensation he sold his friends to the powerful elite of bankers and politicians, but, alas, he did not live long to enjoy his fame and the fruits of his deed!

Following in the steps of his famous predecessor, Mr. Nixon sold his friends to *exactly the same elite*, but, naturally enough, for a much higher sum.

He is also praised and applauded from all sides — but will he be able to reap the profits of this deal?

That is the question!

But, quite obviously, Mr. Richard Nixon already secured an honorable place in history only a little bit below that which is occupied by Mr. Judas Iscariot . . .

"The Republican and Democratic parties are the Left and Right wing of the same bird of prey — the banker. What our country needs is a Liberator Party."

REV. CHARLES E. COUGHLIN,  
Radio Priest of the 1930s.
